Certificate

Our Services

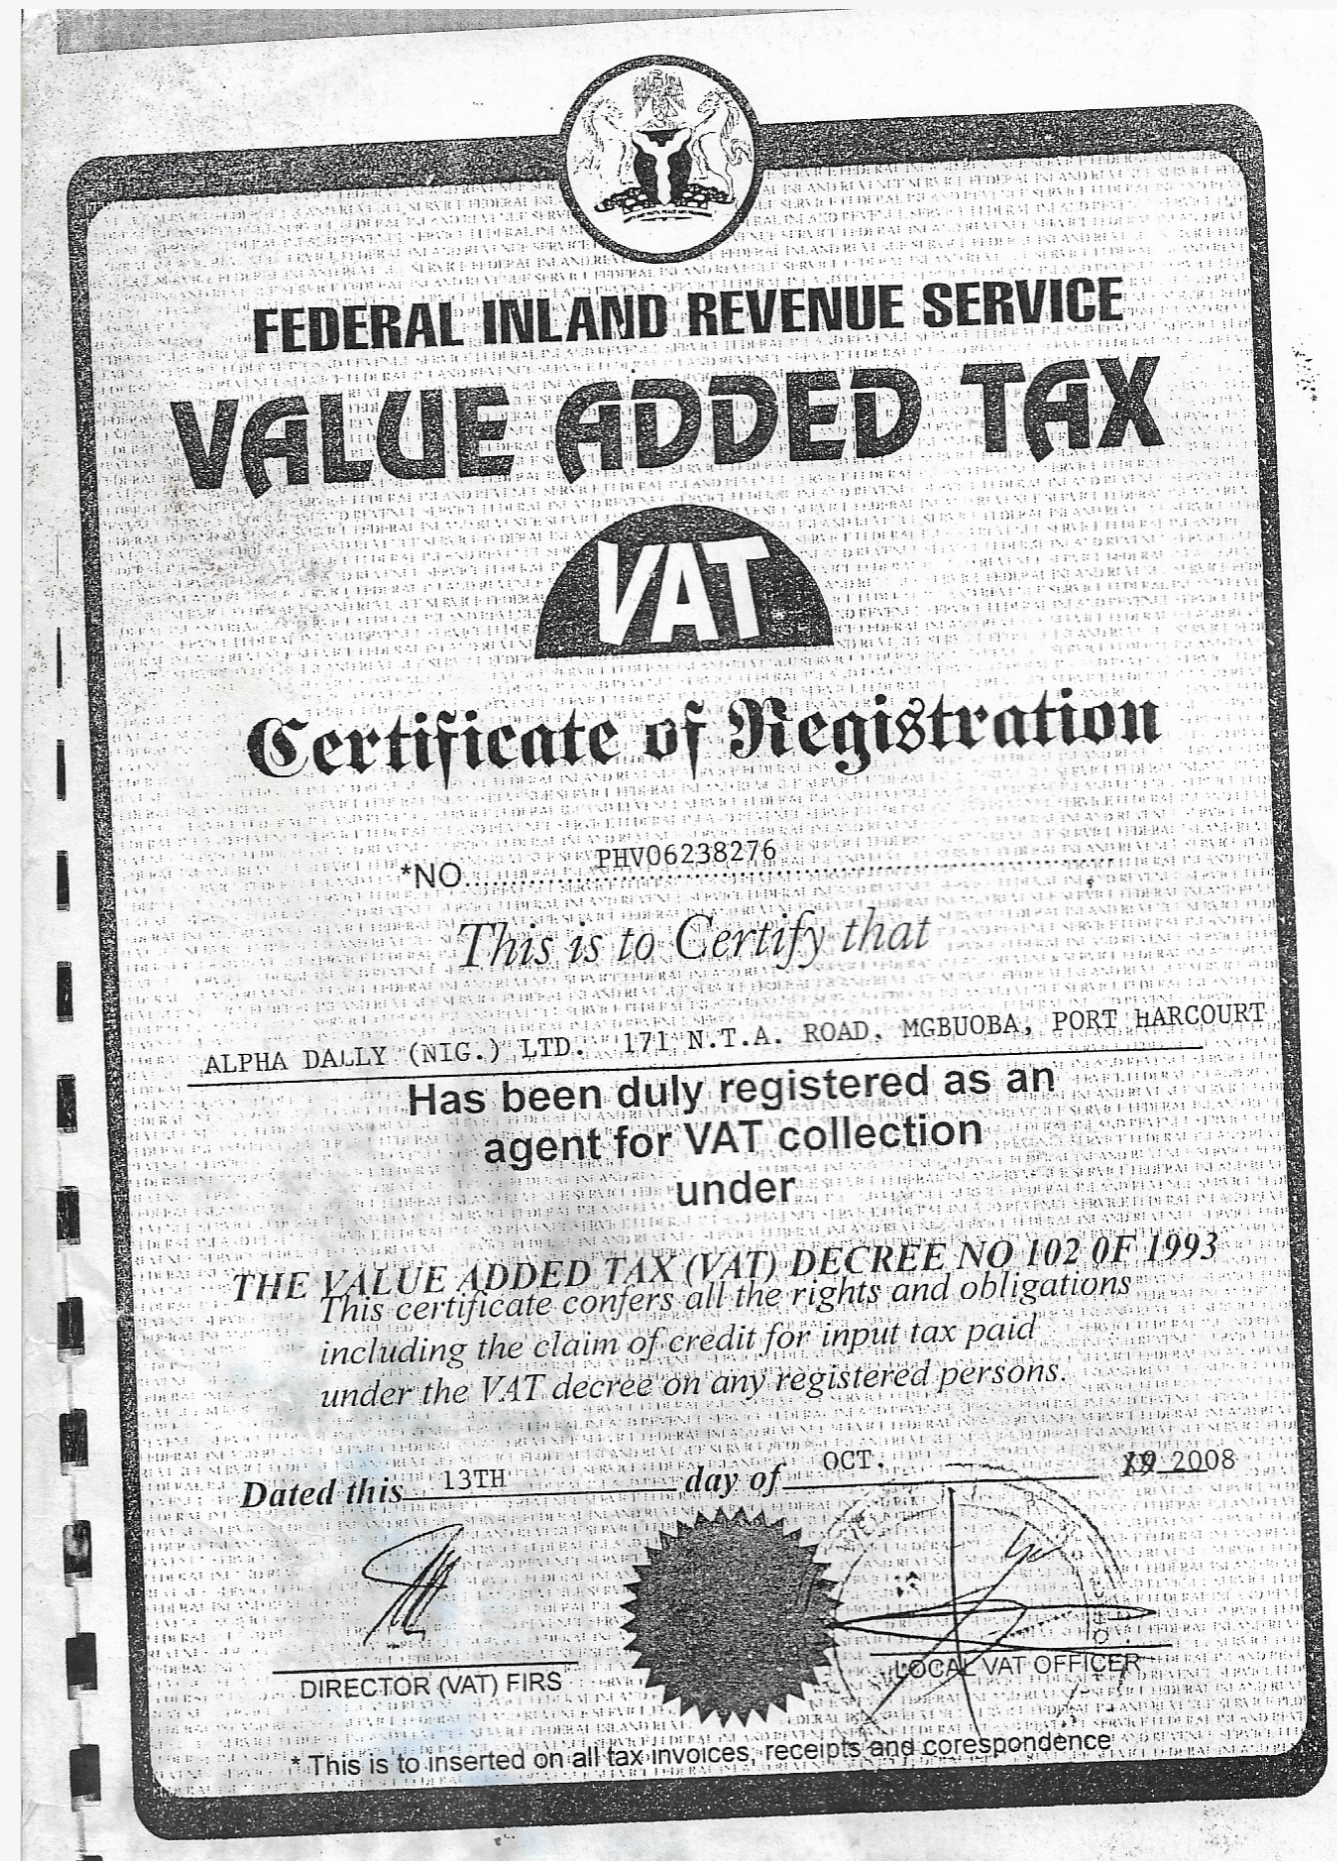

Tank Cleaning

We deploy quick and efficient modern tank cleaning equipment with no man entry inside the product tanks. Even when tanks are thought to be free of moisture and foreign debris, they often contain enough water and other contaminants to degrade the stored product. Alpha Dally Nig. Ltd can remove contaminants including gel precipitates, microbial growth, rust and water without disturbing the product or taking the tank out of use, using our modern equipment.

Certificate

Fuel tank cleaning without stopping the operation and without worker entering to the tank!

Certificate

Our Services

Fuel tank cleaning without stopping the operation and without worker entering into the tank is the newest modern method of cleaning petroleum products tanks.

FUEL SAMPLERS 4 & 8 oz

For use with Gasoline, Ethanol Blends, Diesel, Bio-Diesel to take before and after cleaning samples

- One (1") inch diameter for access to generator and marine tanks
- The trip valve allows you to take samples from all fuel levels
- Easily disassembles for cleaning.

Fuel samples taken before and after tank cleaning with a Mobile tank cleaning system.

FUEL SAMPLER

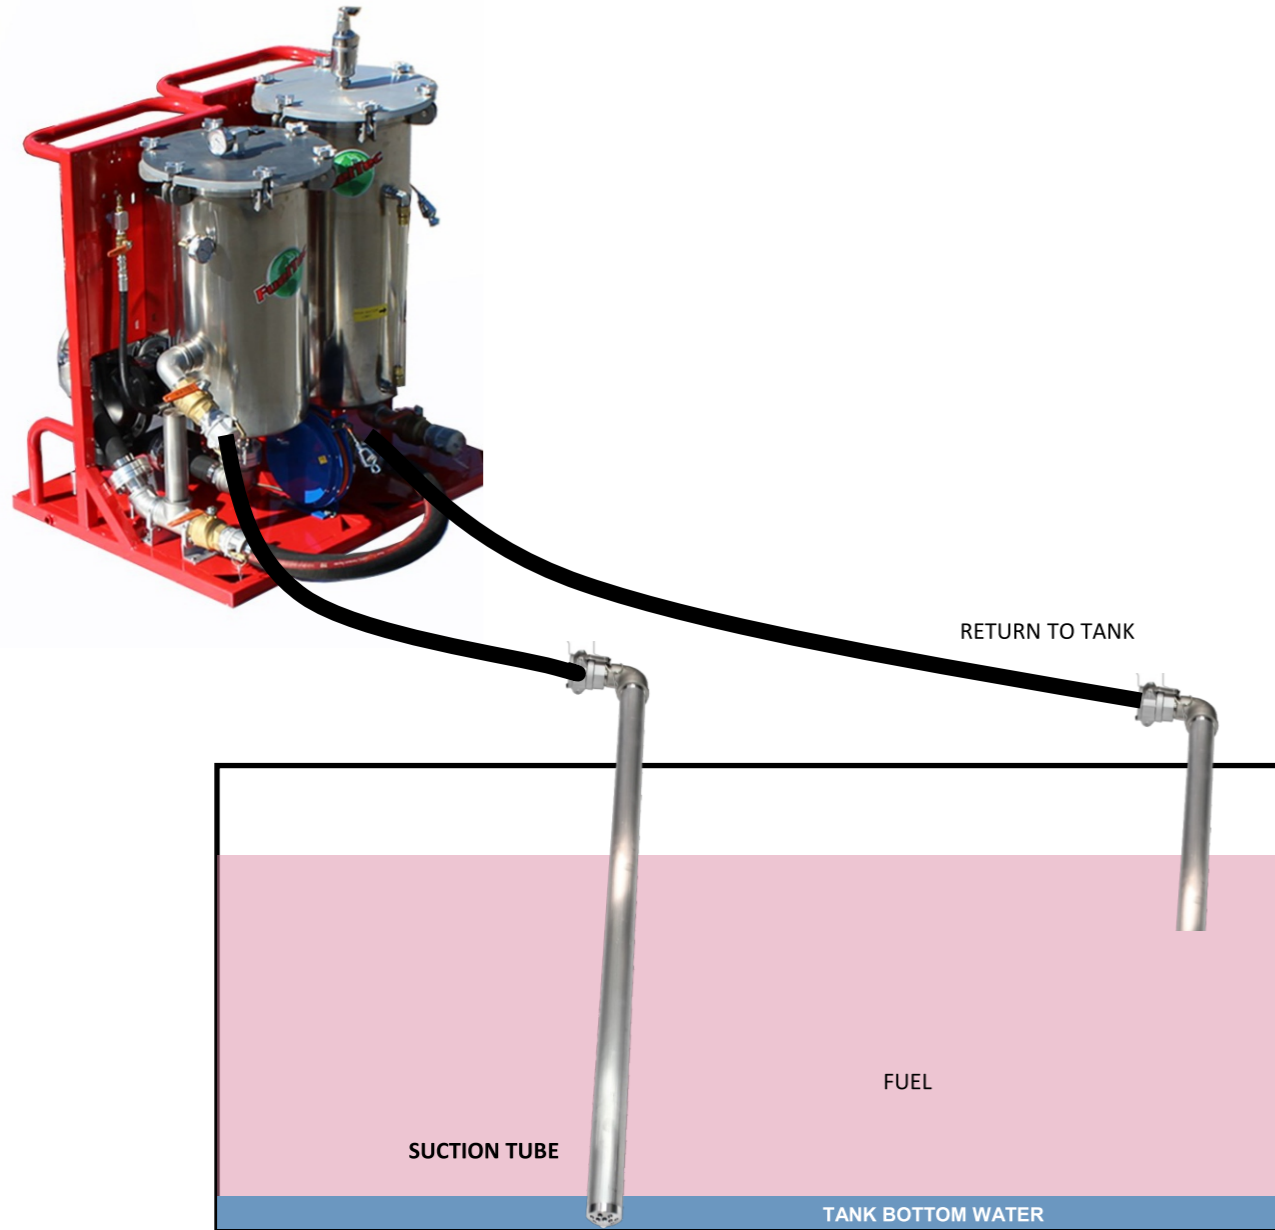

Quality First

ALPHA DALLY NIG. LTD

Certificate

Modular Mobile Fuel Polishing & Tank Cleaning System High Capacity One Micron Filtration & Water Separation at 3,000 GPM

The filter module's electric gear pump creates a vacuum in the filter housing drawing the contaminated fluid from the tank bottom, through the six bag filters where the solid contaminants are removed. The cleaned fluid is then transferred through the water separator module where the water is removed from the fuel down to less than 50 PPM.. The

NOT FOR USE WITH GASOLINE, ETHANOL, OR JET FUELS
